

# Department of Transportation and Engineering

Director of Transportation  
Michael Moore

Director's Office

Engineering Division  
Don Gindling

Traffic Engineering  
Greg Long (Acting)

Transportation Planning & Urban Design  
Matthew Andrews (Acting)

**Traffic Engineering**  
Operations  
 Accident Records  
 Crosswalks & School Zones  
 Pavement Marking Design  
 Paring Meter Placement  
 Special Event Traffic Control  
 Speed Limit Signage  
 Traffic Counts  
 Traffic Signal Justification  
 Truck Loading & Valet Parking Zones  
 Traffic Control Signs  
 Work Zone Traffic Control  
Electrical Design  
 Assessed Street Lighting Program  
 Cinergy Coordination  
 Computerized Traffic Signal System  
 Gas Street Light Management Traffic  
 Overhead Signs, School Zone Flashers  
 Traffic Signal and Street Lighting Design  
 Signal timing  
 Street Lighting Intensity Standards

**Office Support**  
**Administrative**  
**Accounting**  
**Information Technology**  
 Director and Department Correspondence  
 Council Referrals  
 Customer Service Coordination  
 Human Resources  
 Fleet Management  
 Safety  
 Professional Development  
 Budget Monitoring  
 Procurement  
 Payroll  
 Supplies  
 Administration  
 Information Technology  
 Budget Development & Monitoring  
 Project Cost Accounting  
 Accounts Payable/Receivable  
 Permit Accounting  
 Expense Analysis  
 Labor Distribution Project Set-up

**Architecture**  
 Transportation Urban Design Policies and Guidelines  
 Urban & Architectural Preliminary, Concept & Detail Design for all Transportation Systems:  
 Highways, Bridges, Railroad, Light Rail, Commuter Rail, Heavy Rail, Water, etc.  
 Urban & Architectural Design for Client Agencies  
 Streetscape, Highway Infrastructure, Bridges, Transit Facilities, Pedestrian Ways, other Public areas  
 Graphic Design for City Agencies  
 Design Review for Environmental Quality  
 Districts and other special overlay districts  
 Urban Design Review board for City Manager  
 Technical Support  
 Capital Budget and Project Management

**Planning**  
 Multi-Modal System Coordination: Bus Transit, Rail Transit, Rail Freight, Bicycle, Airport, Water, and Pedestrian Systems, Intelligent Transportation Systems  
 Inter & Intra Agency Transportation Coordination: METRO/SORTA, ODOT, KYTC, InDOT, OKI, FTA, FHWA, EPA, Economic Development, City Planning, General Services, and Neighborhood Services  
 Coordination of Private / Public Partnership  
 Transportation Policy: Linkage with Land Use  
 Parking Policy Linkage to Transportation  
 VMT Goals  
 Alternative Evaluations  
 Travel Demand Management  
 Transportation Strategic Plan  
 R/W Regulatory Policy Development
