## Station X Radiotrician Named President of New Group

A new organization, known as the Queen City Radio Amateur Association, a merger of the old Queen City organization and the Northern Kentucky Radio Amateur Association, was formed at Withrow High School Friday night.

Officers elected were Carl W. Luhn, chief radiotrician of Station X, president; Richard Walker, Covington, vice president; A. H. Sullivan secretary-treasurer, and George B. Park, activities manager. Meetings on the second and fourth Friday nights of each month will be held at Withrow until a permanent headquarters is selected.
