

CPD Notes from Breakout discussion

3.4.21

We had a long discussion regarding the Mayor's letter to the Biden administration, that concerned the consent decree and its impact to the diversity of Cincinnati's Police Department.

We talked about the number of minority officers, including female officers, how CPD recruits. We also talked about minorities in Leadership, promotional opportunities, and mentoring.

The group asked about how they can help and if they could write something that could help this concern. They were shocked to know that Lt. Comeaux, when promoted, was only the 5th female Lieutenant in the history of CPD, now the number is 8.
